- Phone: 7418242633

Education

B.Tech in Cybersecurity
SNU Chennai
Currently pursuing

Technical Skills

- Programming Languages: Python, C, Java
- Tools: Wireshark, BurpSuite, Bettercap, Nikto
- Network Knowledge: Packet Analysis, Security Protocols, OSI Model

Projects

- **Packet Analysis using Wireshark**
  Explored network packet analysis techniques using Wireshark. Captured live network traffic, analyzed protocols, and performed security analysis. **GitHub Repository:** Link

- **Cipher Decoder**
  Developed a tool for decoding various ciphers and encrypted messages. Explored cryptographic techniques and gained insights into historical and modern ciphers. **GitHub Repository:** Link

- **Password Strength Checker**
  Implemented a robust tool to check the strength and security of passwords. Explored password hashing, complexity analysis, and algorithm implementation. **GitHub Repository:** Link

- **Movie Recommendation System**
  Developed a recommendation system for movies. **GitHub Repository:** Link

Certifications

- **Google Cybersecurity Professional Certificate**
  Currently pursuing on Coursera

- **CCNA Bootcamp**
  Completed CCNA Bootcamp

- **Udemy Ethical Hacking Certificate**
  Earned Udemy Ethical Hacking Certificate

- **NPTEL Social Networking**
  Completed NPTEL course on Social Networking

Bug Bounty

- Identified and reported a bug in the RKT Travels local travel website.

Skills

- Social Engineering Techniques
- Basic knowledge of WireShark, Bettercap, BurpSuite, Nikto
- Attended CTFs, Security Conferences, and Workshops
